KEY FEATURES

- ▶ **H.265** (50% reduction in bandwidth, storage and bit rate compared with H.264.)
- ▶ **140dB Super WDR** (Excellent performance even when the ratio of the luminosity of brightest and darkest is up to 140dB.)
- ▶ **IR Distance up to 120m** (Enabling 120 meters distinct images at night with IR LEDs.)
- ▶ **255 Preset Positions** (The user can easily control the lens position via mouse to monitor interested area and set up to 255 preset positions for patrolling.)
- ▶ **Keyboard Control** (Shortcut keys for PTZ control via Milesight Keyboard.)

0.002Lux Ultra Low-light

The starlight camera is able to deliver high detailed color images even in low light environment reaching 0.002Lux(Color) or 0Lux(B/W), and near infrared light environments without any supplementary lighting.

30x Optical Zoom

The 30x optical zoom can zoom up to distant subjects while still maintaining the clarity, delivering high quality video over the entire zoom range.

Smart PTZ Motion Detection

The smart PTZ motion detection function enables the user to monitor specified area clearly in a timely manner. When there is motion detected in a target area, Milesight Speed Dome Camera will pan and tilt to the position of motion detected area automatically. Then zoom in to provide clear image for a duration of time. If the motion is no longer detectable or the duration expires, the camera will resume its previous monitoring position and zoom level.

360° Endless Pan, 0°~90° Auto Flip Tilt

With a sophisticated pan/tilt mechanism, Milesight Speed Dome Network Camera provides fast, precise movement with endless 360-degree pan and 90-degree tilt. The user can easily control the lens position via mouse to monitor area of interest and set up to 255 preset positions for patrolling. There are up to 8 patrol routes and maximum 4 patterns of the manual operation paths (for Pan, Tilt, Zoom and Focus) which can be set as required. Moreover, the user is able to schedule specific PTZ tasks by date and time.
